

The Light Path  
Lecture # 4 of Year Two

The Light Beings Speak

The Light Being Existence

*I ask the divine light guide us and protect us. I call forth the beings of light and love, truth and wisdom. And I ask now that all that we need for the divine enfoldment of our souls, on all levels of our existence, manifest peacefully and lovingly.*

It is our wish to teach, to guide and to help receptive hearts and minds come to an understanding of themselves and their place upon the earth. Before any teaching is possible, it is important for you, the reader, to have a grasp of who we are and what kind of existence we live.

We have not discussed this much and so we use our feeble words of earth to explain who we are. Please try to understand that we are taking a dimension not defined in limited ways of solid matter and trying to place it into words of earth, words of limited matter. Thus, we ask for your understanding and patience but also, for your creative thought.

It is important that you take our words and try to understand them in the depths of your mind and heart for it is there that you will understand them in an unlimited way. We do not have a definite form. We were created by the supreme being. Some upon the earth might call us angels, some might call us guides, some might call us collective thoughts. It is not really important what label you give us. We were created to help transform energy from one existence into action in other existences.

In order that we may communicate between the dimensions, we need to live in a different energy field surrounding various levels of existence. Just as earth beings go through many lives to come to understand the fullness of their being, we transform many times before we have a full understanding of the fullness of God's creation. There are those among us who

have been blessed by God and thus are called Children of God. We are under the direction and guidance of these beings. The Lord Jesus directs how we bring love to the earth, how we bring thought to the earth and how we are permitted to see the energy fields.

It is also important to understand that we do not divide ourselves into sexual creatures. We are not male or female, for we have no form. We are not mother, father, son, or sister, but rather, we understand the energy formations of each of these form definitions. Thus, at times when we speak of the Mother or the Father, we are speaking of the energy formation at its purest form and reflection under God's guidance. And, at times we speak directly from the pure dimension of God's love.

We live eternally as you live eternally. We transform, we change, we move among ourselves. Our movement is guided by our core of energy. Thus, if we are to learn of certain energy fields we combine with other beings who are also learning of these energy fields. Our learning is not like earth learning. Our learning is perhaps the most difficult to explain to you for it is as if we are standing in the middle swirling mass of energy and we, formless beings, come to be one with this energy. In the becoming one with it, we learn it. Because we are separate beings created by the Master, by the Supreme One, we can also separate out of this mass of energy and return back to our unique creative core. Just as you on earth separate yourselves from earth defined bodies and return back to your unique creative core.

We respond to the calling of those in form who are seeking to learn about certain dimensions or have learned about certain dimensions and are now living on earth to bring this knowledge to the earth. It is our responsibility to eliminate fear. Fear is the essence that separates one energy being from another. Fear helps those in form, or in lower energy forms, forget the one that's in spirit. We are directed toward certain forces on the earth, to work through them. We are directed by the higher beings of light -- the Ultimate Beings, the One, as you would say, the Mother, Father, or The Great Spirit.

We are directed by this Great Spirit to those who have been calling for oneness with this spirit, and who have through their lives decided to serve their dimensions. We do not only help those in physical form. We help those in other dimensions that are not as free as we. We are not allowed under any circumstances to change the course of existence. That can only happen between one's higher nature, the essential core and the Supreme One. We may call upon the higher nature to see the change but we cannot actually bring it about.

We receive nourishment but not through physical form because we do not have such a form. Our nourishment sources are the energy of love and pure thought. Our energy fields are vitalized by allowing ourselves to remain still within these energies. To us, stillness means not seeking action in other dimensions. In this stillness, we open to the love of the Supreme Being. When we are vitalized, we are permitted to move out of the stillness and guide others again. We are many and some of us are always available to be with you when you call.
